Mr. Dori Larea holds an M.A. degree in Educational Management and Leadership from the University of Tel Aviv in Israel and undergraduate studies in Mass Communication and Political Science. His professional specialization is in the field of educational research. For two years he has worked as a researcher in the Israeli Department of Educational Innovation and Experiment while completing his M.A. thesis on Educational Change in the 21st century.

Dori Larea has 6 years of experience in management as a commander and a captain of various combat units in IDF.

Dori Larea is the Founder of Mind Lab South Florida. His vision is to develop a culture of thinking through games.

Upon his arrival to the United States, less than two years ago, Mr. Larea has successfully implemented Mind Lab in over 50 schools in South Florida. Additionally he has brought to its selection for the 2007 Florida K-12 Conference for "Relevant Education for Real Life Experiences" as one of the best 50 practices in Florida's schools to improve Scholastic achievements.
